

- 1) Checking of insulation on string wiring
- 2) Checking of connectors on string wiring extension
- 3) Checking grounding of structure
- 4) Checking of grounded conductors installed
- 5) Checking of solar panel properly mounted and sealed
- 6) Checking of conduction and glands condition
- 7) Checking of damage of modules
- 8) Checking of shading on modules
- 9) Checking of DCDB Box
- 10) Checking of DC fuse condition
- 11) Checking of termination of conductors
- 12) Checking of DC Earthing
- 13) Checking of proper conductor size and insulation types
- 14) Checking of DC & AC SPD condition
- 15) Checking of AC Earthing
- 16) Checking of Net meter and Gen. meter condition
- 17) Checking of main isolator condition
- 18) Checking of Inverter connection
- 19) Checking of Inverter Condition
- 20) Checking of Inverters Earthing
- 21) 12 times cleaning in Year
- 22) Checking of monthly billing
- 23) Checking of WIFI Stick configuration
- 24) Checking of lightining arrester condition
- 25) Emmergency visit on site also include in this scope
- 26) Note : If any extra material required on site it will be extra as per actual cost

- 1) Checking of insulation on string wiring
- 2) Checking of connectors on string wiring extension
- 3) Checking grounding of structure
- 4) Checking of grounded conductors installed
- 5) Checking of solar panel properly mounted and sealed
- 6) Checking of conduction and glands condition
- 7) Checking of damage of modules
- 8) Checking of shading on modules
- 9) Checking of DCDB Box
- 10) Checking of DC fuse condition
- 11) Checking of termination of conductors
- 12) Checking of DC Earthing
- 13) Checking of proper conductor size and insulation types
- 14) Checking of DC & AC SPD condition
- 15) Checking of AC Earthing
- 16) Checking of Net meter and Gen. meter condition
- 17) Checking of main isolator condition
- 18) Checking of Inverter connection
- 19) Checking of Inverter Condition
- 20) Checking of Inverters Earthing
- 21) 6 times cleaning in Year 4 times physical checkup in year
- 22) Checking of monthly billing
- 23) Checking of WIFI Stick configuration
- 24) Checking of lightining arrester condition
- 25) Emmergency visit on site also include in this scope
- 26) Note : If any extra material required on site it will be extra as per actual cost

#### Oru Other Features

- 1) Wifi Stick / GPRS Reomte Monitoring System
- 2) Insurance
- 3) Inverter Warranty Extension
- 4) System expansion
- 5) Solar Water Heater
- 6) Solar Home Light System
- 7) Solar Street Light

#### On Demand AMC Scope of Work

3

- 1) Checking of insulation on string wiring
- 2) Checking of connectors on string wiring extension
- 3) Checking grounding of structure
- 4) Checking of grounded conductors installed
- 5) Checking of solar panel properly mounted and sealed
- 6) Checking of conduction and glands condition
- 7) Checking of damage of modules
- 8) Checking of shading on modules
- 9) Checking of DCDB Box
- 10) Checking of DC fuse condition
- 11) Checking of termination of conductors
- 12) Checking of DC Earthing
- 13) Checking of proper conductor size and insulation types
- 14) Checking of DC & AC SPD condition
- 15) Checking of AC Earthing cheaking of Net meter and Gen. meter condition
- 16) Checking of Net meter and Gen. meter condition
- 17) Checking of main isolator condition
- 18) Checking of Inverter connections
- 19) Checking of Inverter Condition
- 20) Checking of Inverters Earthing
- 21) Cleaning of a system
- 22) Checking of WIFI Stick configuration
- 24) Checking of lightining arrester condition
- 25) Note : If any extra material required on site it will be extra as per actual cost

#### 4 On Demand AMC Scope of Work

- 1) Checking of insulation on string wiring
- 2) Checking of connectors on string wiring extension
- 3) Checking grounding of structure
- 4) Checking of grounded conductors installed
- 5) Checking of solar panel properly mounted and sealed
- 6) Checking of conduction and glands condition
- 7) Checking of damage of modules
- 8) Checking of shading on modules
- 9) Checking of DCDB Box
- 10) Checking of DC fuse condition
- 11) Checking of termination of conductors
- 12) Checking of DC Earthing
- 13) Checking of proper conductor size and insulation types
- 14) Checking of DC & AC SPD condition
- 15) Checking of AC Earthing
- 16) Checking of Net meter and Gen. meter condition
- 17) Checking of main isolator condition
- 18) Checking of Inverter connection
- 19) Checking of Inverter Condition
- 20) Checking of Inverters Earthing
- 21) 12 times cleaning in Year
- 22) Checking of monthly billing
- 23) Checking of WIFI Stick configuration
- 24) Checking of lightining arrester condition
- 25) Emmergency visit on site also include in this scope
- 26) Note : If any extra material required on site it will be extra as per actual cost
